EXPLANATION OF "TAXING AUTHORITY INFORMATION" SECTION

- COLUMN 1 - TAXABLE VALUE - LAST YEAR**
This column shows the prior assessed value less all applicable exemptions used in the calculation of taxes for that specific taxing authority.
- COLUMNS 2 & 3 - YOUR FINAL TAX RATE AND TAXES LAST YEAR**
These columns show the tax rate and taxes that were applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.
- COLUMN 4 - TAXABLE VALUE - THIS YEAR**
This column shows the current assessed value less all applicable exemptions used in the calculation of taxes for that specific taxing authority. Various taxable values in this column may indicate the impact of the Additional Homestead exemption. Current year taxable values are as of January 1, 2019.
- COLUMNS 5 & 6 - YOUR TAX RATE AND TAXES THIS YEAR IF PROPOSED BUDGET CHANGE IS MADE**
These columns show what your tax rate and taxes will be this year under the BUDGET ACTUALLY PROPOSED by each taxing authority. The proposal is NOT final and may be amended at the public hearings shown at the top of this notice. The difference between columns 6 and 8 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.
- COLUMNS 7 & 8 - YOUR TAX RATE AND TAXES THIS YEAR IF NO BUDGET CHANGE IS MADE**
These columns show what your tax rate and taxes will be IF EACH TAXING AUTHORITY DOES NOT CHANGE ITS PROPERTY TAX LEVY. These amounts are based on last year's budget and your current assessment.

EXPLANATION OF "PROPERTY APPRAISER VALUE INFORMATION" SECTION

Market (Just) Value is the most probable sales price for your property in a competitive, open market. It is based on a willing buyer and a willing seller.
Assessment Reductions:
 Properties can receive an assessment reduction for a number of reasons. Some of the common reasons are below. There are limits on how much the assessments of your property can increase each year. The Save Our Homes program and the limitation for non-homestead property are examples. Certain types of property, such as agricultural land and land used for conservation, are valued on their current use rather than their market value. Some reductions lower the assessed value only for levies of certain taxing authorities.
 If your assessed value is lower than your market value because limits on increases apply to your property or because your property's value is based on its current use, the amount of the difference and reason for the difference are listed in the box titled "Assessment Reductions" on the front page.
Assessed Value is the market value of your property minus any assessment reductions. The assessed value may be different for levies made by different taxing authorities.
Exemptions are specific dollar or percentage reductions in value based on certain qualifications of the property owner, such as the homestead exemption.
Taxable Value is the value used to calculate the tax due on your property. Taxable value is the assessed value minus the value of your exemptions.
